or pay at the theater with Cash or Venmo

**Additional donations can also be made at the screening
via Cash, Check or Venmo.**

Film Synopsis

The United States border is not just a geographic location. The border is everywhere. It lies within every undocumented immigrant family with the threat that at any moment they can be captured, incarcerated, deported; their lives destroyed. **BORDERLAND | The Line Within** not only exposes the profitable business of immigration and its human cost, but weaves together the stories of immigrant heroines and heroes resisting and showing a way forward, intent on building a movement in the shadow of the border industrial complex, recognizing the human rights of all.
